MEASURING UP GUIDE

Drop Mount

Flush Mount

Different rod lengths are available for most fans

A flush mount ceiling fan can only be mounted on a flat ceiling

Drop mounted fans can be mounted on flat or sloping ceiling up to 35 degrees in angle. Please note that when a remote control is installed the maximum ceiling angle is 20°.

Blade tips should be at least 15cm from the nearest obstacle in any direction, e.g. tie bar, wall or roof beam

Blade tips should be at least 15cm from the nearest obstacle in any direction, e.g. tie bar, wall or roof beam

Ceiling fan blades should be at least 229cm from the floor

Ceiling fan blades should be a minimum of 229cm and a maximum of 290cm above the floor to be safe and effective

To convert a flush mount fan to a drop mount fan, you will need a conversion kit

To mount a ceiling fan in a conservatory, a 'Big Strip Fastener' would be useful. See page 50.
